10% DISCOUNT — If you want a 10% discount—on quantity lots of 5,000 or more (on any item in this folder) and IF YOU LET ME KNOW 60 DAYS IN ADVANCE OF SHIPPING DATE, I can make that kind of discount.

Frankly, this business of planning production is a job! I always am disappointed when some customer suddenly orders 5,000 Philodendron, let's say, the 2" pot size at 9c each, and who feels he should get a quantity discount because of the large order. Then I have to point out that there is no saving

on my part over an order of 100 or 500. The point is, if I know in ADVANCE, I would add the 5,000 extra cuttings to take care of the order. It eliminates risk on my part and is worth the 10% discount.

Also, with 60-day notice or more, depending on the item, I actually can give you a BIGGER plant. What we do in that case is set the 5,000 aside for you! This means that (before shipment) a sizeable percentage of the plants is ABOVE minimum size, since we don't pick from YOUR lot! Let me hear from you as to how I can work with you on this.
